Notes to the Condensed Interim Consolidated Financial Statements

Three months ended June 30, 2020 and 2019

(Expressed in Canadian Dollars)

1. Nature of the Company and Continuance of Operations

Lithoquest Diamonds Inc. (“Lithoquest” or the “Company”) was incorporated on February 25, 1986 in Alberta, Canada. In April 2014, it was continued from the jurisdiction of Alberta to British Columbia, Canada. On November 23, 2017, the Company changed its name to Lithoquest Diamonds Inc. from Consolidated Westview Resource Corp. upon completing a reverse take over transaction with a private company Lithoquest Diamonds Inc., which changed its name to Lithoquest Holdings Inc. (“Holdings”).

The Company is engaged in the acquisition and exploration of mineral properties. The Company’s head office is at 199 Norton Road, Salt Spring Island, BC V8K 2P5.

The Company has been active in acquiring, exploring and evaluating potential properties in the Kimberly region of the Australian state of Western Australia. Due to difficult market conditions for funding diamond exploration, the Company has put a hold on substantive exploration expenditure on the North Kimberly Diamond Project and reflected a write-down of the project in the consolidated statement of comprehensive loss for the year ended March 31, 2020.

The Company has not generated significant revenues or cash flows from operations and has not yet determined whether its mineral property asset contains ore reserves that are economically recoverable. The recoverability of amounts shown for exploration and evaluation asset is dependent upon the discovery of economically recoverable reserves, confirmation of the Company’s interest in the underlying mineral claims, the ability of the Company to obtain the necessary financing to complete the development of and the future profitable production from the property or realizing proceeds from its disposition. The outcome of these matters cannot be predicted at this time and the uncertainties cast significant doubt upon the Company’s ability to continue as a going concern. These unaudited condensed interim consolidated financial statements have been prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business.

As at June 30, 2020, the Company had a working capital deficit of \$170,250. The Company has incurred negative cash flows from operations, recorded a loss of \$106,885 for the three months ended June 30, 2020, and has an accumulated deficit of \$10,197,388 as at June 30, 2020.

2. Basis of Presentation

These condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard (“IAS”) 34 “Interim Financial Reporting”. They do not include all of the information required for full annual financial statements and should be read in conjunction with the consolidated financial statements for the year ended March 31, 2020, prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”).

The accounting policies applied in preparation of these condensed interim consolidated financial statements are consistent with those applied and disclosed in the Company’s consolidated financial statements for the year ended March 31, 2020, unless otherwise stated.

These financial statements were authorized for issue by the Board of Directors of the Company on August 27, 2020.

5. Contingency

Stamp duty

Accounts payable and accrued liabilities includes a provision for stamp duty of \$251,438 (AUD \$268,000). Stamp duty in Western Australia arises on the transfer of property, including mining tenements, and applies at the rate of 5.15% where the value of the property exceeds AUD\$2,000,000. This provision was recorded at the time of the reverse take-over transaction which transferred indirect ownership of the North Kimberley tenements to the Company. The Company subsequently obtained a formal appraisal of the property which sets the value at less than the AUD\$2,000,000 minimum threshold, implying that no stamp duty is payable and the Company has made such filings with the Government of Western Australia, Office of State Revenue (“OSR”).

The OSR subsequently engaged an independent valuator to prepare a second formal appraisal of the property. Based on the results of that report, which assessed the property at AUD\$5,000,000, the OSR issued a duties assessment notice to the Company on September 25, 2019 of AUD\$469,732, consisting of AUD\$251,415 duty, and AUD\$218,317 penalties and costs.

Following receipt of the notice, and with the OSR understanding, the Company engaged a third independent valuator for the purpose of critiquing the first two reports and producing a third independent valuation report. The Company has received that report which concludes that the preferred value of the property is less than the AUD\$2,000,000 minimum threshold. The Company has lodged a formal objection to the OSR’s duties assessment notice and is currently in discussions with the OSR’s Review team.

No stamp duty or penalties will be payable if the ultimate fair value determination by the OSR is less than AUD\$2,000,000. Should the ultimate determination be made that the fair value of the property at the time of the reverse take-over transaction was in excess of AUD\$2,000,000, administrative penalties of up to 100% of the calculated amount of stamp duty payable may be applied. The Company believes that no such penalty amounts will be due, however, it is not known at this time what amount, if any, will ultimately be payable or when the matter will be settled.
