## 1. Nature of the Company and Continuance of Operations

Lithoquest Resources Inc. ("Lithoquest" or the "Company") was incorporated on February 25, 1986 in Alberta, Canada. In April 2014, it was continued from the jurisdiction of Alberta to British Columbia, Canada. On November 23, 2020, the Company changed its name to Lithoquest Resources Inc. from Lithoquest Diamonds Inc.

The Company is engaged in the acquisition and exploration of mineral properties and is currently focused on exploration of three district scale gold properties in northwestern Ontario. The Company's head office is at 1480 - 885 W. Georgia Street, Vancouver, BC V6C 3E8.

The Company has been active in acquiring, exploring and evaluating potential properties in the Kimberly region of the Australian state of Western Australia. Due to difficult market conditions for funding diamond exploration, the Company has put a hold on substantive exploration expenditure on the North Kimberly Diamond Project and reflected a write-down of the project in the consolidated statement of comprehensive loss for the year ended March 31, 2020.

The Company has not generated significant revenues or cash flows from operations and has not yet determined whether its mineral property assets contain ore reserves that are economically recoverable. The recoverability of amounts shown for exploration and evaluation assets is dependent upon the discovery of economically recoverable reserves, confirmation of the Company's interest in the underlying mineral claims, the ability of the Company to obtain the necessary financing to complete the development of and the future profitable production from the property or realizing proceeds from its disposition. The outcome of these matters cannot be predicted at this time and the uncertainties cast significant doubt upon the Company's ability to continue as a going concern. These unaudited condensed interim consolidated financial statements have been prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business.

As of December 31, 2021, the Company had working capital of \$30,704, representing funds available to cover on-going operating costs. The Company has incurred negative cash flows from operations, recorded a loss of \$872,476 for the nine months ended December 31, 2021, and has an accumulated deficit of \$11,591,242 as at December 31, 2021.

### 2. Basis of Presentation

These condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard ("IAS") 34 "Interim Financial Reporting". They do not include all the information required for full annual financial statements and should be read in conjunction with the consolidated financial statements for the year ended March 31, 2021, prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

The accounting policies applied in preparation of these condensed interim consolidated financial statements are consistent with those applied and disclosed in the Company's consolidated financial statements for the year ended March 31, 2021, unless otherwise stated.

These financial statements were authorized for issue by the Board of Directors of the Company on February 25, 2022.

## 3. Exploration and Evaluation Assets

Miminiska-Fort Hope Greenstone Belt Projects	
Balance, March 31, 2021	\$ 58,250
Exploration and evaluation expenditures	976,476
Land acquisition and administration	775,000
Balance, December 31, 2021	\$ 1,809,726

The Miminiska-Fort Hope Greenstone Belt Projects are three district scale gold properties; Miminiska, Keezhik and Attwood, which cover more than 41,000 ha within the traditional territory of the Eabametoong First Nation in northwestern Ontario.

On December 22, 2020, the Company acquired mineral claims over a prospective and under-explored area of the Miminiska-Fort Hope greenstone belt. The Attwood Project comprises 1,151 mineral claims covering 23,262 hectares and is located approximately 60 km southwest of the Eabametoong First Nation Community of Fort Hope and 320 km north of city of Thunder Bay, Ontario. Attwood is a green-fields project covering geology that is prospective for precious and base metal deposits. The property lies within five kilometres of the all-weather Ogoki Forestry Road and is accessible by float plane.

On May 5, 2021, the Company entered into an Option Agreement with Landore Resources Canada Inc. ("Landore") to acquire 100% interest in the Miminiska Lake and Keezhik Lake mining claims located in Pickle Lake area, Thunder Bay Mining District, northwestern Ontario, for a purchase price of \$1,375,000 cash and by paying Landore the additional sum of \$2,650,000 in cash or in the Company's common shares.

Under the terms of the Option Agreement, the Company will earn a 100% interest in the Miminiska and Keezhik properties by making the scheduled payments defined in Table 1 to Landore. A convertible cash payment can either be made in cash or common shares of the Company, at the Company's election. The optionor will retain a 2 per-cent net smelter return royalty on the property, of which 50 per-cent (a 1 percent royalty) is purchasable at any time by the Company for \$1,000,000.

The transaction was accepted by the TSX on June 24, 2021 (the "Effective Date").

\$ 2,162,563

### 4. Deferred Premium Liability

The premium paid for flow-through shares in excess of the market value of the shares without the flow-through features is initially recognized as a liability. The liability is subsequently reduced and recorded in the consolidated statements of comprehensive loss on a pro-rata basis based on the corresponding eligible expenditures that have been incurred when it is the Company's intention to file the appropriate renunciation forms with the Canadian taxation authorities.

Total premium liability of \$27,400 was recognized during the period in respect of flow-through financings (see note 5). During the period, the full \$27,400 deferred premium liability was recognized as income in the consolidated statements of comprehensive loss.

In connection with the flow-though financing conducted during the period, the Company incurred an obligation to spend a total of \$685,000 on qualifying exploration expenditures by December 31, 2022. During the period, the company incurred qualifying exploration expenditures totalling \$685,000 and therefore no further expenditure obligation remained as at December 31, 2021.

## 5. Share Capital

### Authorized share capital

The Company is authorized to issue an unlimited number of common shares without par value.

#### **Issued shares**

On June 30, 2021, the Company closed a non-brokered private placement in which it issued 18,095,000 units at a price of \$0.10 per unit and 5,480,000 flow-through shares of the Company at \$0.125 per flow-through share for aggregate gross proceeds of \$2,494,500. Each unit consists of one common share of the Company and one-half warrant, with each whole warrant entitling the holder thereof to acquire an additional common share of the Company at an exercise price of \$0.15 per warrant share for a period of 24 months from the date of issuance.

In connection with the financing, the Company issued 795,300 finder's warrants, each warrant exercisable to purchase a common share at \$0.15 for two years. The fair value of \$64,800 for the finder's warrants was determined using the Black-Scholes pricing model. with the following assumptions: risk free interest rate -0.45%, expected life -2 years, annualized volatility -150%, share price -\$0.12, dividend rate -0%.

The cash issuance costs, consisting of legal fees, finder's fees, and regulatory costs, were \$103,389.

On December 24, 2021, in connection with on option payment due under its Option Agreement with Landore, the Company issued 4,507,093 common shares at a deemed price of \$0.088749 per share to Landore.

## 7. Contingency

#### Stamp duty

Accounts payable and accrued liabilities include an accounting provision for stamp duty payable of \$246,694 (AUD\$268,000) (March 31, 2021 \$256,530 - AUD\$268,000). Stamp duty in Western Australia is payable by the purchaser on the transfer of property, including mining tenements, and is applied at the rate of 5.15% where the value of the property exceeds AUD\$2,000,000. This accounting provision was recorded at the time of the reverse take-over transaction which transferred indirect ownership of the North Kimberley tenements to the Company. The Company subsequently obtained a formal appraisal of the property which set the value at less than the AUD\$2,000,000 minimum threshold, implying that no stamp duty was payable and the Company made such filings with the Government of Western Australia, Office of State Revenue ("OSR").

The OSR subsequently engaged their own valuator to prepare a second formal appraisal of the property. Based on the results of that report, which assessed the property at AUD\$5,000,000, the OSR issued a

Notes to the Condensed Interim Consolidated Financial Statements Nine months ended December 31, 2021 and 2020 (Expressed in Canadian Dollars)

## 7. Contingency - continued

duties assessment notice to the Company on September 25, 2019 of AUD\$469,732, consisting of AUD\$251,415 duty, and AUD\$218,317 penalties and costs.

Following receipt of the assessment notice, and with the OSR understanding, the Company engaged a third independent valuator for the purpose of critiquing the first two reports and producing a third independent valuation report. The Company received that report which concludes that the preferred value of the property is less than the AUD\$2,000,000 minimum threshold. The Company lodged a formal objection to the OSR's duties assessment notice in February 2020. In November 2020, the OSR obtained a further valuation from Landgate, the Western Australian Government official valuer, which appraised the value of the land at AUS\$2,200,000. The Company is currently in discussion with Revenue WA (formerly known as OSR).

No stamp duty or penalties would be payable if the ultimate fair value determination by Revenue WA or an arbitrator was less than AUD\$2,000,000. Should the ultimate determination be made that the fair value of the property at the time of the reverse take-over transaction was in excess of AUD\$2,000,000, administrative penalties of up to 100% of the calculated amount of stamp duty payable may be applied.
