

STORM
EXPLORATION

Canadian High-Grade Gold Exploration

Forward Looking Statements

This presentation may contain “forward-looking statements.” These forward-looking statements are made as of the date of the PowerPoint presentation and Storm Exploration Inc. (“Storm” or the “Company”) does not intend, and does not assume any obligation, to update these forward-looking statements. Forward-looking statements include, but are not limited to, statements with respect to the timing and amount of estimated future exploration, success of exploration activities, expenditures and requirements for additional capital.

Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Such factors include, among others, risks related to actual results of current exploration activities; changes in project parameters as plans continue to be refined; the ability to enter into joint ventures or to acquire or dispose of property interests; future prices of mineral resources; accidents, labour disputes and other risks of the mining industry; ability to obtain financing; and delays in obtaining governmental approvals or financing.

Unless otherwise indicated, Bruce Counts, P.Geol, President, CEO, & Director of Storm Exploration Inc. and a Qualified Person under National Instrument 43-101, has reviewed and is responsible for the technical information contained in this presentation.

The Value Proposition

The right ingredients for significant value creation

- ✓ 100% ownership of 3 district scale projects in NW Ontario
- ✓ Confirmed precious metal & critical mineral endowment
- ✓ First Nations agreements in place for all projects
- ✓ Low share counts: 20.7m shares issued
- ✓ Access to non-dilutive capital
- ✓ Attractive market capitalization: \$4.1M

Corporate Information

Share Structure

Issued & Outstanding	20.7M
Warrants (w.a. \$0.48)	4.0M
Options (w.a. \$1.28)	1.5M
Share Price	\$0.20
Market Capitalization	\$4.1M

Management & Directors

Bruce Counts, <i>PGeo</i> :	President, CEO & Director
Taylor Niezen, <i>B.Comm.</i> :	CFO & Corporate Secretary
Rob L'Heurux, <i>P.Geo</i> :	Independent Director
Michael Sweatman, <i>CPA</i> :	Independent Director
Joanne Price <i>PGeo</i> :	Independent Director

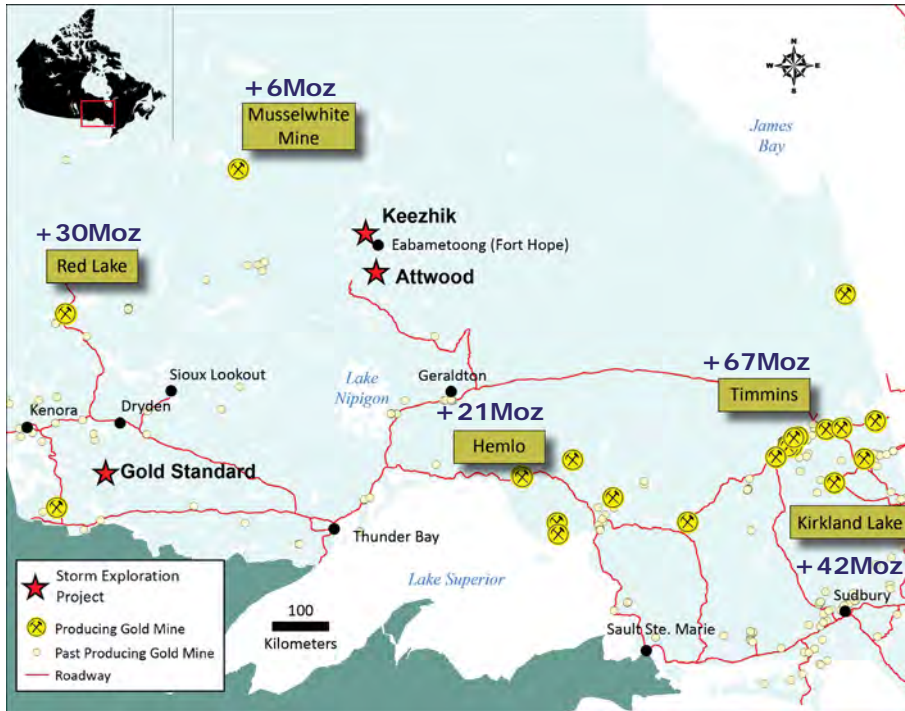

Advisors

John Williamson:	Capital Markets Advisor
Cameron Dorsey:	Technical Advisor
Chief Harvey Yesno:	First Nations Advisor
Allison Rippin-Armstrong:	ESG Advisor

3 District-Scale Projects in a Proven Jurisdiction

NW Ontario - Home to +200Moz of gold production

Gold Standard (100%)

- 2 targets: VMS & high-grade gold
- Road accessible

Keezhik (100%)

- 8 drill-confirmed Au occurrences
- No drilling since 1980's

Attwood (100%)

- Precious & base metal potential
- Road accessible

Gold Standard Property

100% Owned District Scale Project with Gold and Base Metal Potential

The Gold Opportunity

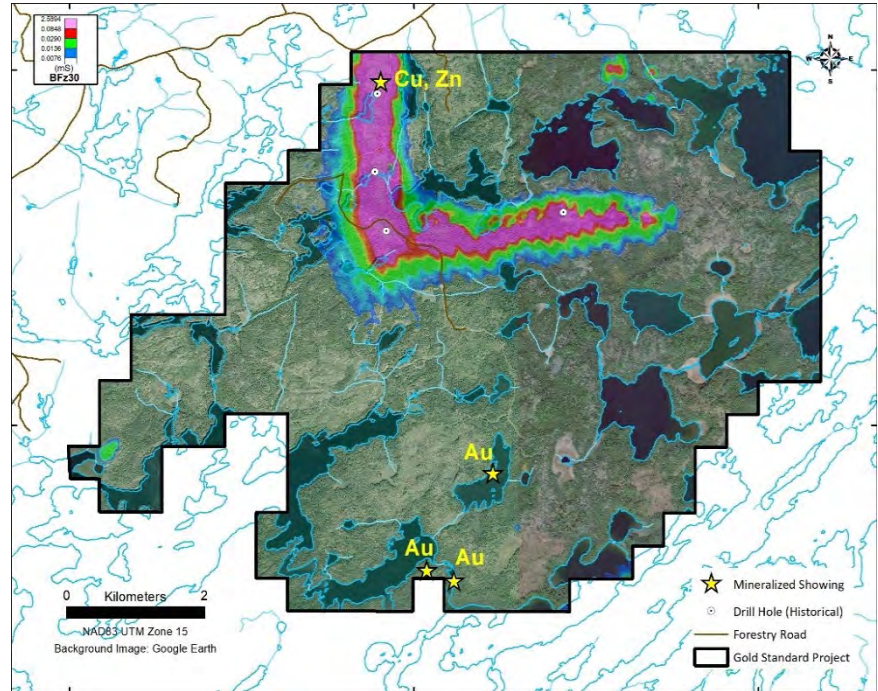

- Three historical high-grade gold mines underscore prospectivity
- Area of gold mining never drilled
- Up to **166 g/t Au** from grab samples collected near historical workings

The Base Metal Opportunity

- Large conductivity anomaly suggests an extensive VMS system
- Cu/Zn mineralization reported in 3 shallow drill holes but never assayed
- Road accessible

Next Steps

- Q1 - Ground surveys over VMS target
- Q2 - Drill test VMS target

Fort Hope Gold Projects

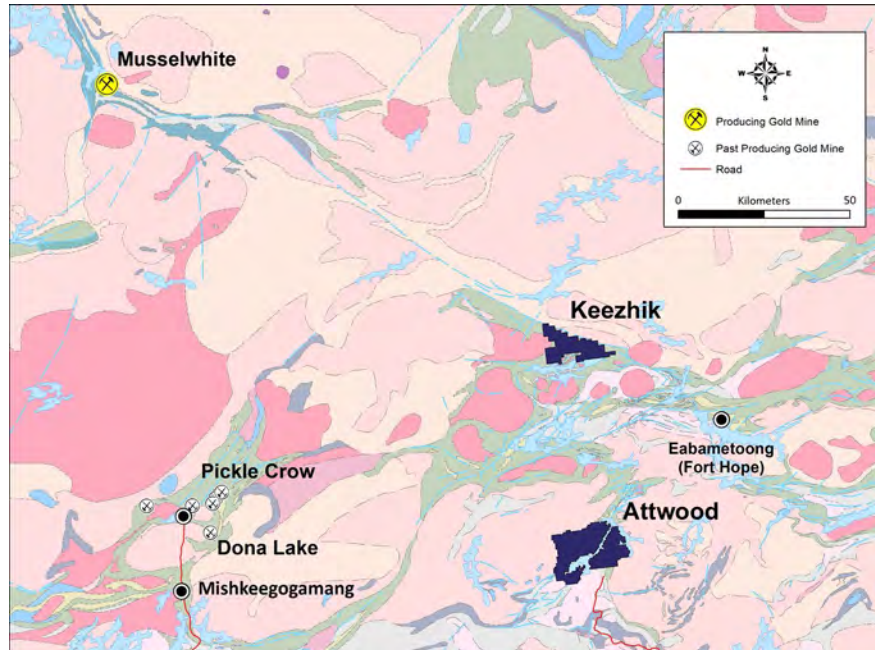

100% Ownership in 2 District-Scale Projects in an Underexplored Greenstone Belt

Miminiska-Fort Hope Greenstone Belt

- Part of the mineral rich Uchi Geological Subprovince (>30 Moz in Au production)
- Proven endowment in precious metals and critical minerals
- First gold discoveries made in 1930's
- Mineral potential of the belt recently recognized – **75,894 ha of mineral claims acquired since Dec/25**

Projects Primed for Discovery

- >35,000ha of prospective geology
- Drill-confirmed high-grade gold targets
- Demonstrable base metal potential
- Exploration Agreement in place with Eabametoong First Nation

Keezhik Property

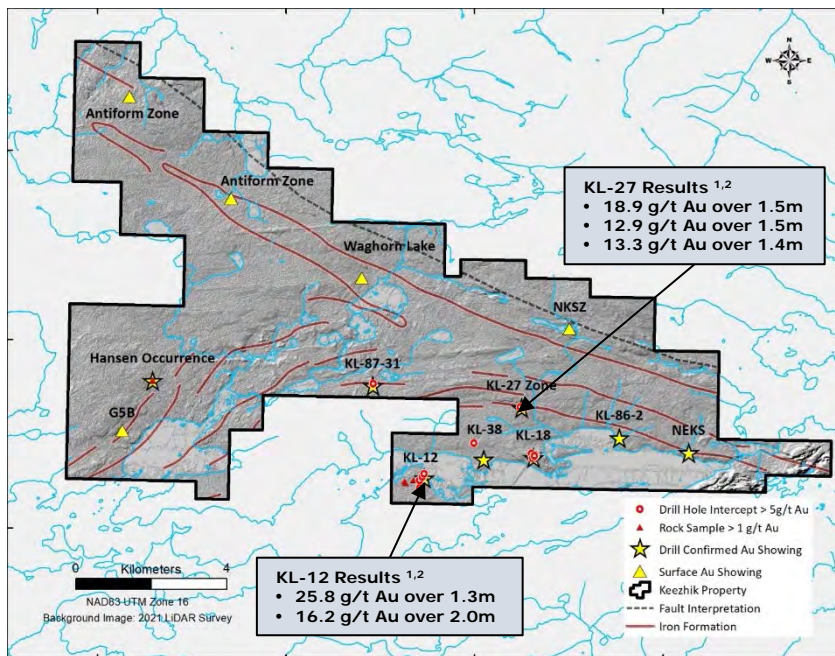

Proven Potential

12,480 ha of Prospective Geology

- Located along same regional structure that hosts the +6Moz Musselwhite Mine
- Surface gold showings span the property
- 8 drill-confirmed high-grade gold targets
- Last drilled in 1988
- Property-wide airborne magnetic and lidar surveys completed

Next Steps

- Q1/2 - Airborne EM surveys
- Q2/3 - Drill target development
- Q3/4 - Drilling

¹ Historical results have not been independently verified by Storm Exploration; and, there is no guarantee that the Company can reproduce the results in whole or in part. Potential investors should not rely on these historical results when making an investment decision

² NI 43-101 Technical Report on the Keezhik Lake Project: A. MacTavish, P.Geol. & J. Arnold, P.Geol., 9-Oct-2007

Attwood Property

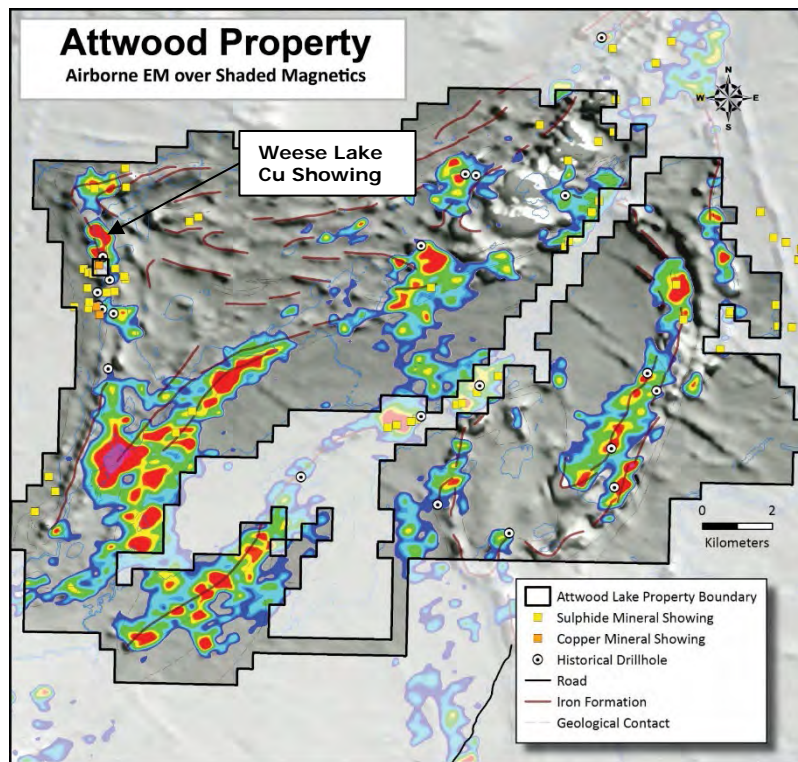

Greenfields Project with Precious Metals and Critical Mineral Potential

23,230 ha of Underexplored Geology

- Only 19 historical drill holes
- Last drilling in 1972
- Host to historical Weese Lake Cu showing
- Sulphide mineral showings found property-wide, including arsenopyrite in BIF
- Large untested EM anomalies

Next Steps

- Q1/2 – High-resolution geophysical surveys
- Q2/3 – Soil sampling & Geological Mapping

Corporate Social Responsibility

Good corporate governance is critical to success. Storm seeks to foster investor, stakeholder and rights-holder confidence by adopting policies that ensure the highest level of corporate integrity and business ethics.

First Nations

Storm has signed Exploration Agreements with all First Nations in whose traditional territory it explores. We strongly believe that the participation of First Nations is essential to the success of any project.

This philosophy is reflected in a statement by Solomon Atlookan, Chief of the Eabametoong First Nation (EFN):

“For far too long, exploration companies have sought to obtain permits before working collaboratively with First Nations. This agreement recognizes the role of our community in permitting, monitoring, and regulating any activities on the land. Storm has been very respectful in working with EFN and this approach should be a model for others to follow.”

Key Reasons to Invest

- ✓ 100% interest in 3 district-scale project in NW Ontario
- ✓ Proven precious metal and critical mineral endowment
- ✓ Agreements with First Nations in place for all projects
- ✓ Low share count: 20.7m shares issued and outstanding
- ✓ Access to non-dilutive capital through property sale
- ✓ Attractive market capitalization \$4.1M
- ✓ Clear path to adding value in the near-term
