STORM EXPLORATION

TSX-V: **STRM**

CANADIAN COPPER & GOLD EXPLORATION

JULY 2026

Forward Looking Statements

This presentation may contain “forward-looking statements.” These forward-looking statements are made as of the date of the PowerPoint presentation and Storm Exploration Inc. (“Storm” or the “Company”) does not intend, and does not assume any obligation, to update these forward-looking statements. Forward-looking statements include, but are not limited to, statements with respect to the timing and amount of estimated future exploration, success of exploration activities, expenditures and requirements for additional capital.

Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Such factors include, among others, risks related to actual results of current exploration activities; changes in project parameters as plans continue to be refined; the ability to enter into joint ventures or to acquire or dispose of property interests; future prices of mineral resources; accidents, labour disputes and other risks of the mining industry; ability to obtain financing; and delays in obtaining governmental approvals or financing.

Unless otherwise indicated, Bruce Counts, P.Geo, President, CEO, & Director of Storm Exploration Inc. and a Qualified Person under National Instrument 43-101, has reviewed and is responsible for the technical information contained in this presentation.

The Value Proposition

Prioritizing Stakeholder Relationships

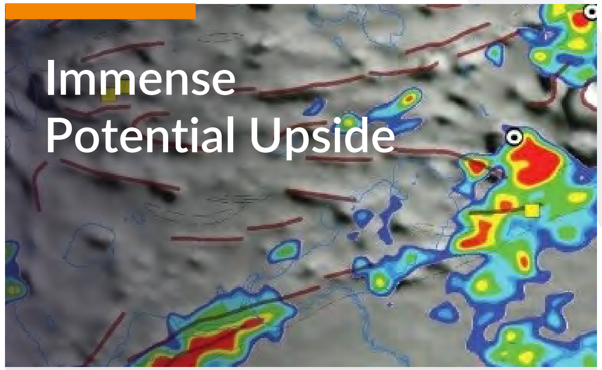
- ✓ **Exploration Agreements signed** with all First Nations in whose traditional territory Storm explores
- ✓ Established framework for **ongoing consultation** with the **NFN & community** participation

Strong Capital Position

- ✓ Very **tightly held share structure** – 21M I/O
- ✓ Access to **non-dilutive capital** from recent property sale to Canadian Goldfields Discovery Corp. for $5.8M

Strategic Land Package

- ✓ Home to **200Moz + gold** production
- ✓ **Confirmed** precious metal & critical mineral endowment
- ✓ **100% ownership** of 3 projects in NW Ontario



Immense Potential Upside

- ✓ **Limited modern exploration** district-scale properties
- ✓ Low project **acquisition costs**
- ✓ **Drilling commences** at flagship Gold Standard Project - Q3/2026

Prioritizing Stakeholder Relationships

Corporate Governance

Storm seeks to foster investor, stakeholder & rights-holder confidence by adopting policies that ensure the highest level of corporate integrity & business ethics.

First Nations & Community Relationships

Storm has signed Exploration Agreements with First Nations in whose traditional territory it explores.

Our philosophy is that the participation of First Nations is essential to the success of any project, as reflected in a statement by **Solomon Atlookan,** Chief of the Eabametoong First Nation (EFN):

> *"For far too long, exploration companies have sought to obtain permits before working collaboratively with First Nations. This agreement recognizes the role of our community in permitting, monitoring, and regulating any activities on the land. Storm has been very respectful in working with EFN and this approach should be a model for others to follow."*

Strong Capital Position & Team

Capital Structure

21.0M
Shares Issued & Outstanding

3.4M
Warrants (w.a. $0.38)

2.1M
Options (w.a. $0.59)

Management & Directors

Bruce Counts, *P.Geo*	President, CEO & Director
Taylor Niezen, *B.Comm.*	CFO & Corporate Secretary
Rob L'Heuruex, *P.Geo*	Independent Director
Dr. Alexander Shaw, *PhD.*	Independent Director
Joanne Price, *P.Geo*	Director, Chief Technical Consultant

Consultants

Gerald Prosalendis	Corporate Strategy Consultant
Soar Financial	Marketing Consultant
Bud Dickson	First Nations Consultant

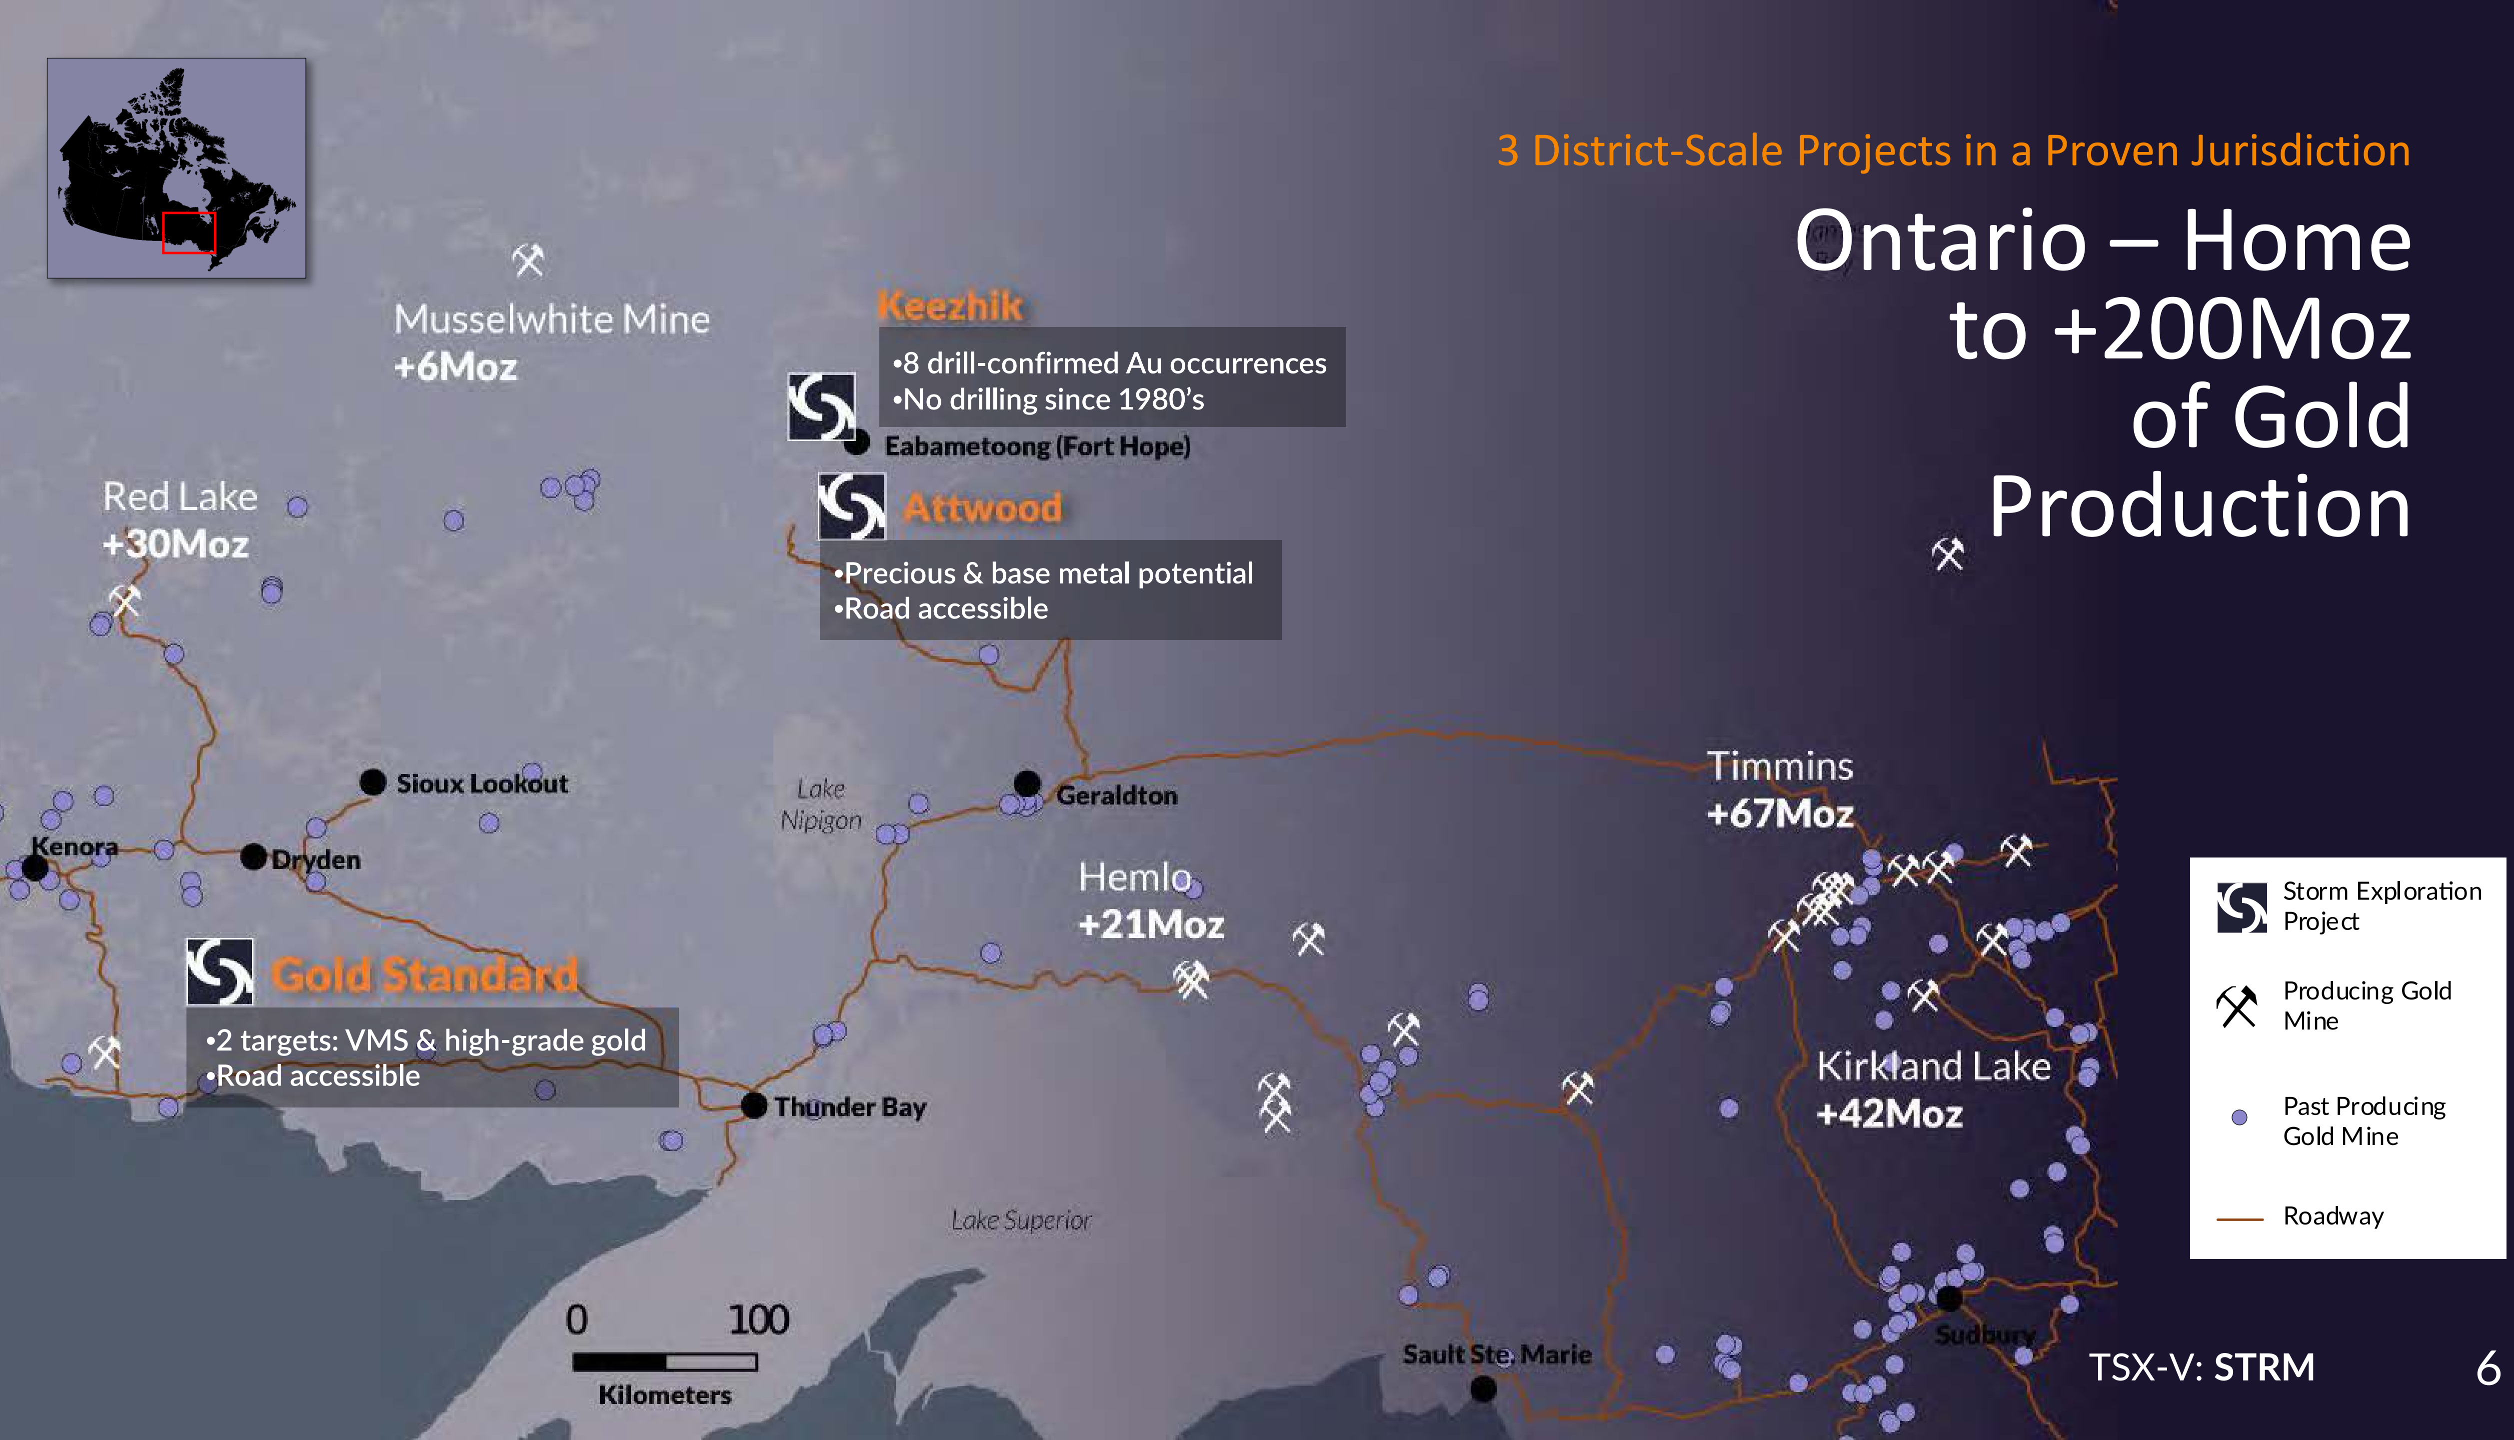
44% HNW

39% RETAIL

17% MANAGEMENT & ADVISORS

3 District-Scale Projects in a Proven Jurisdiction

Ontario – Home to +200Moz of Gold Production



Evidence for a Large Au-Cu VMS Deposit

Gold Standard Property

7,636 ha

1900 – 1903

3 historical high-grade gold mines found

1969–1971

International Nickel Co. – All 4 drill holes:

- < 50m in length
- Intersected sulphide mineralization
- Revealed Cu & Zn mineralization
- Not assayed

STORM'S Modern Exploration

- 2022 surface rock samples: 166 g/t Au, 197 g/t Ag, 1.47% Cu
- Large conductivity anomaly identified in 2023:
  - Continuous over 5km, 50m to 100m wide
  - Vertical orientation
  - Follows a major regional fold

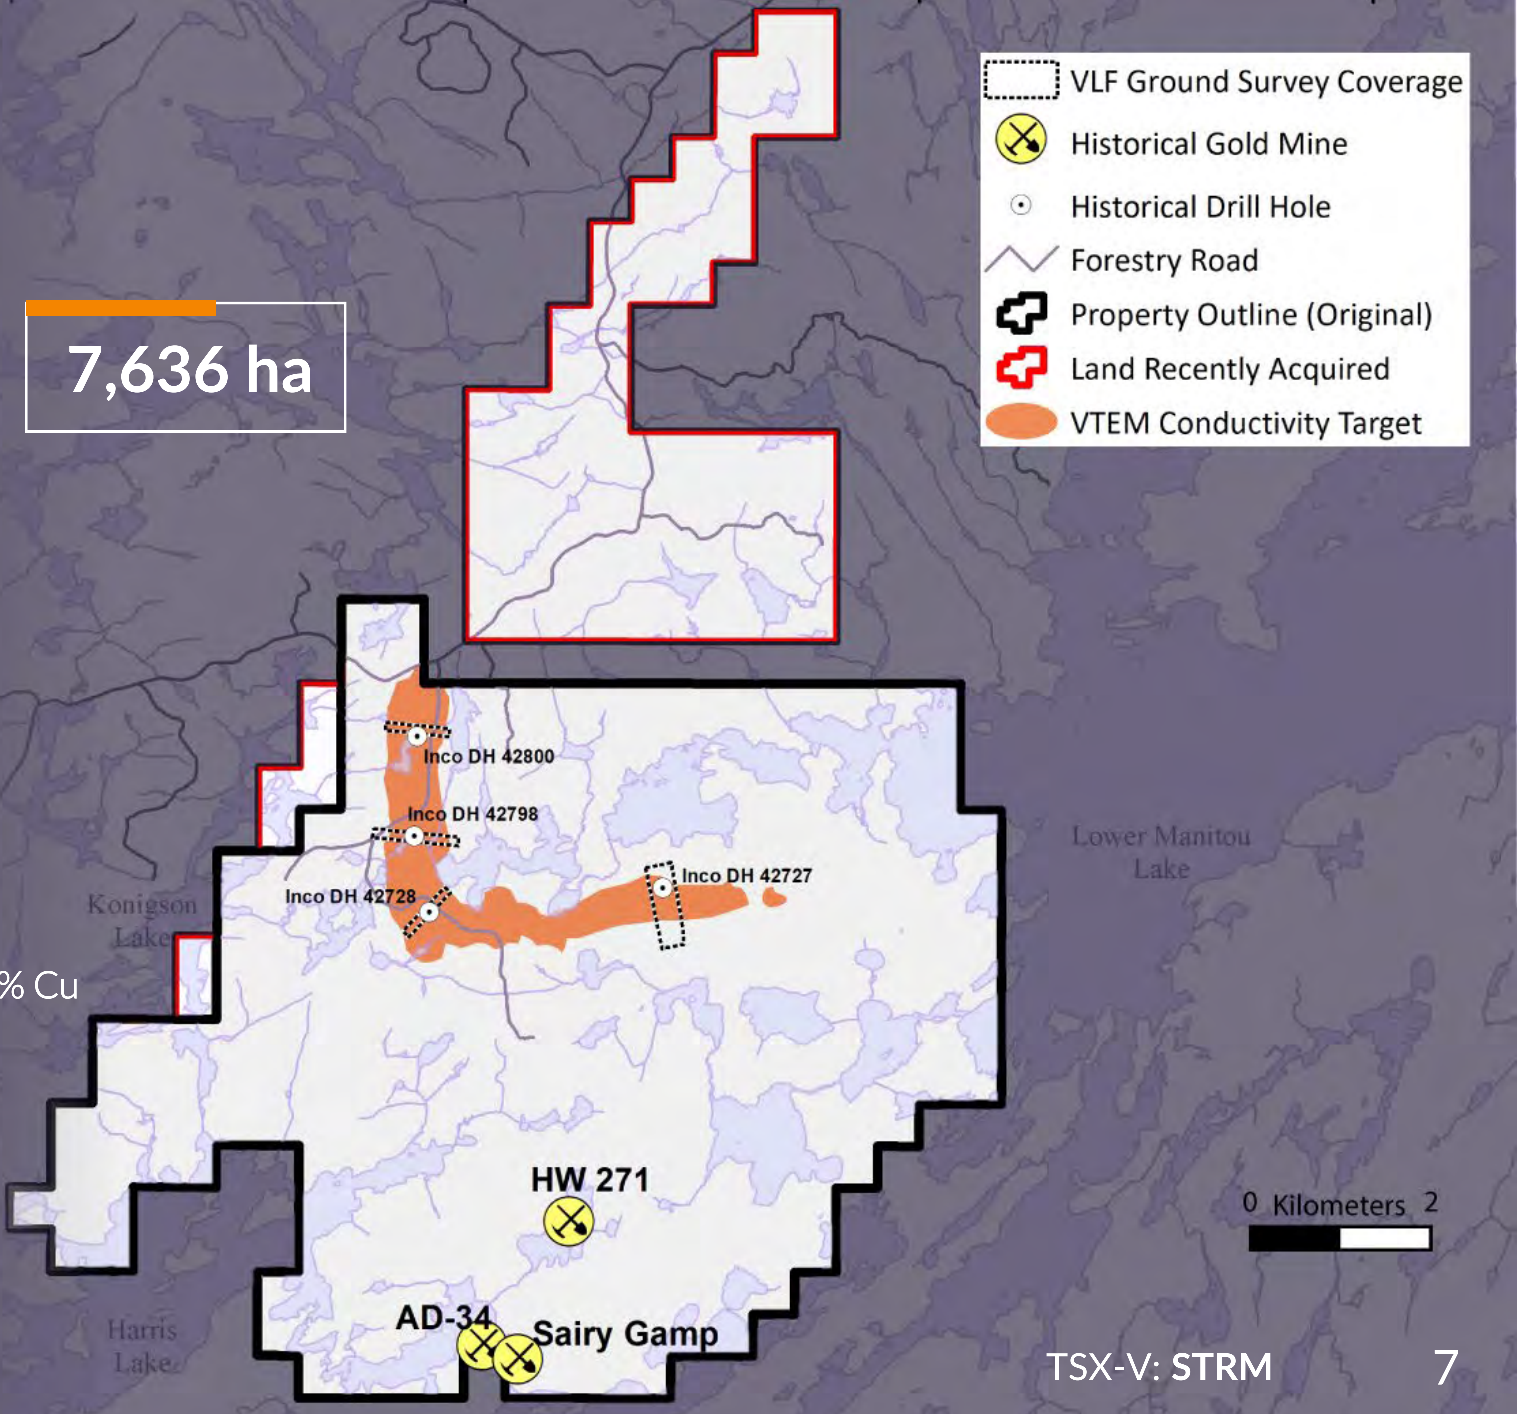


Photo: Historic Horne mine

What are VMS Deposits?

Type of mineral deposit hosting polymetallic ore bodies

- An important source of global critical & precious metals, totalling:

22% Zinc

10% Lead

9% Silver

6% Copper

2.2% Gold

Canada hosts some of the world's largest VMS Deposits – e.g.:

Horne Mine (Rouyn-Noranda, Quebec)[1]
Operational 1927 to 1989:

- Produced 53.7Mt of ore
- **2.22% Cu, 6.1g/t Au and 13g/t Ag**

Kidd Creek Mine (Timmins, Ontario)[2]
Operational 1966 to present

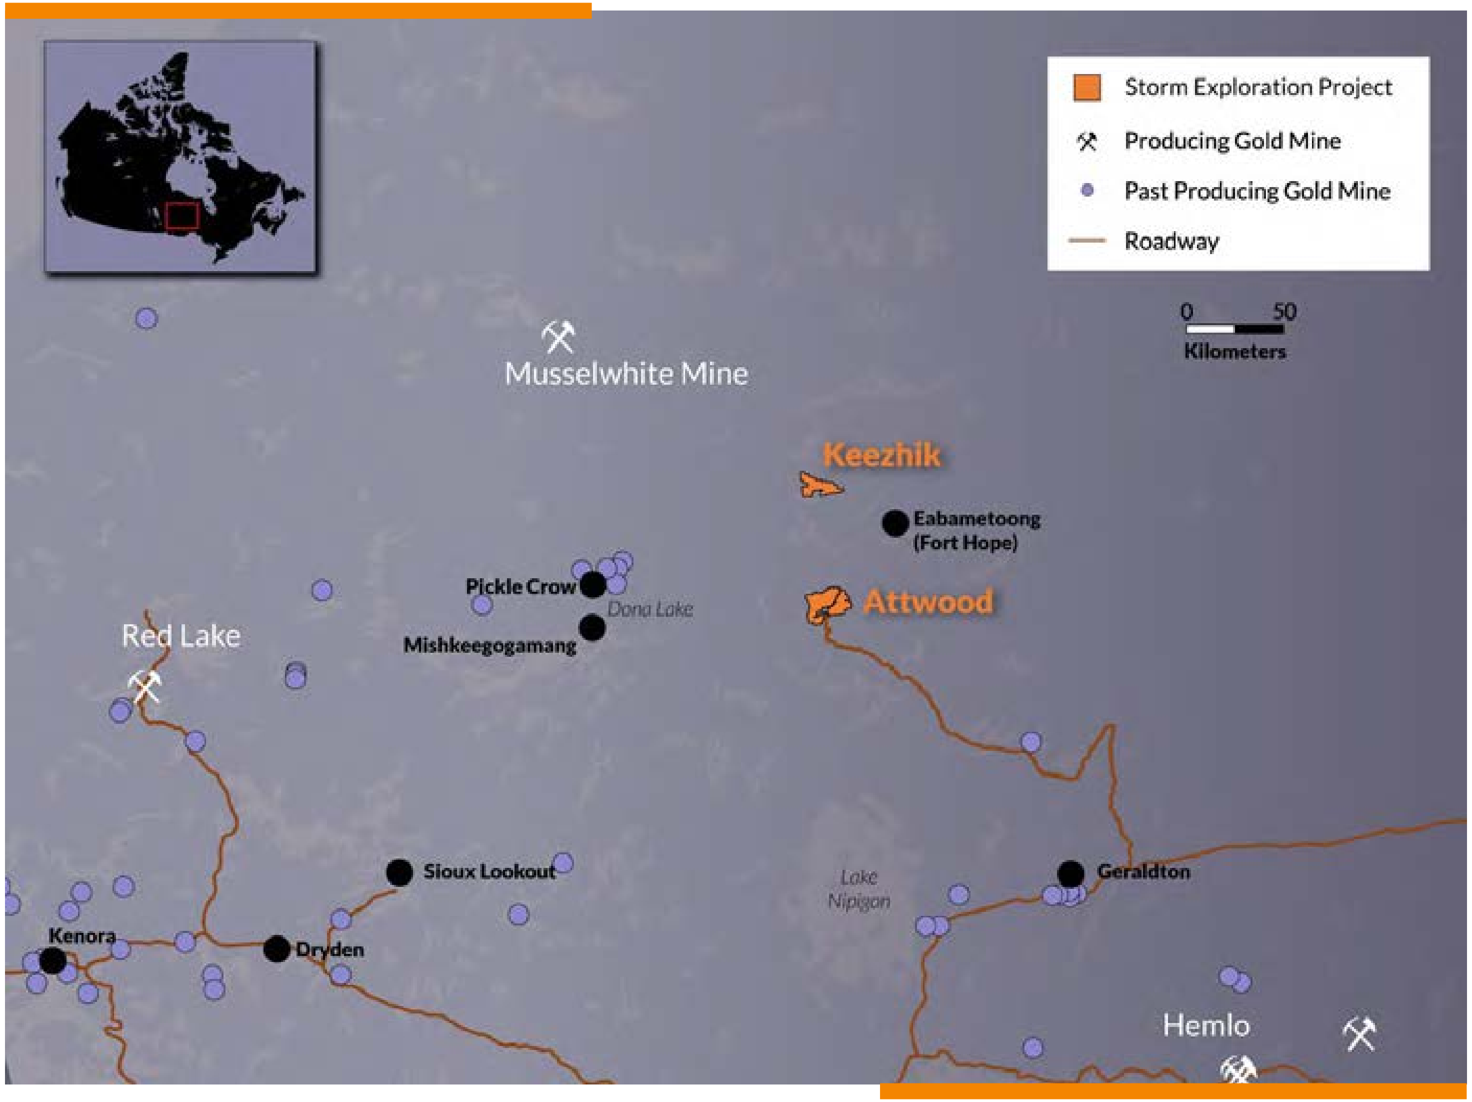
- Produced 140Mt of ore as of 2016
- **2.29% Cu, 6.15% Zn, and 86.2g/t Ag**

[1]Gibson, Harold L., et. al, The Horne Mine: Geology, History, Influence on Genetic Models, and a Comparison to the Kidd Creek Mine in Exploration and Mining Geology (2000) 9 (2): 91–111

[2]Hannington, Mark D. et. al., The Kidd Creek Volcanogenic Massive Sulfide Deposit—An Update; in Archean Base and Precious Metal Deposits, Southern Abitibi Greenstone Belt, Canada, (2017, Ch. 3), Society of Economic Geologists: v. 19

100% Ownership of 2 District-Scale Projects

Additional Projects in an Underexplored Greenstone Belt



Miminiska-Fort Hope Greenstone Belt

- Part of the mineral rich Uchi Geological Subprovince (>30 Moz Au production)
- First gold discoveries made in 1930's
- Mineral potential of the belt recently recognized – **75,894 ha of mineral claims acquired since Dec/25**

Projects Primed for Discovery

- >35,000 ha of prospective geology
- Drill-confirmed high-grade gold targets
- Demonstrable base metal potential
- Exploration Agreement in place with Eabametoong First Nation

Keezhik Property

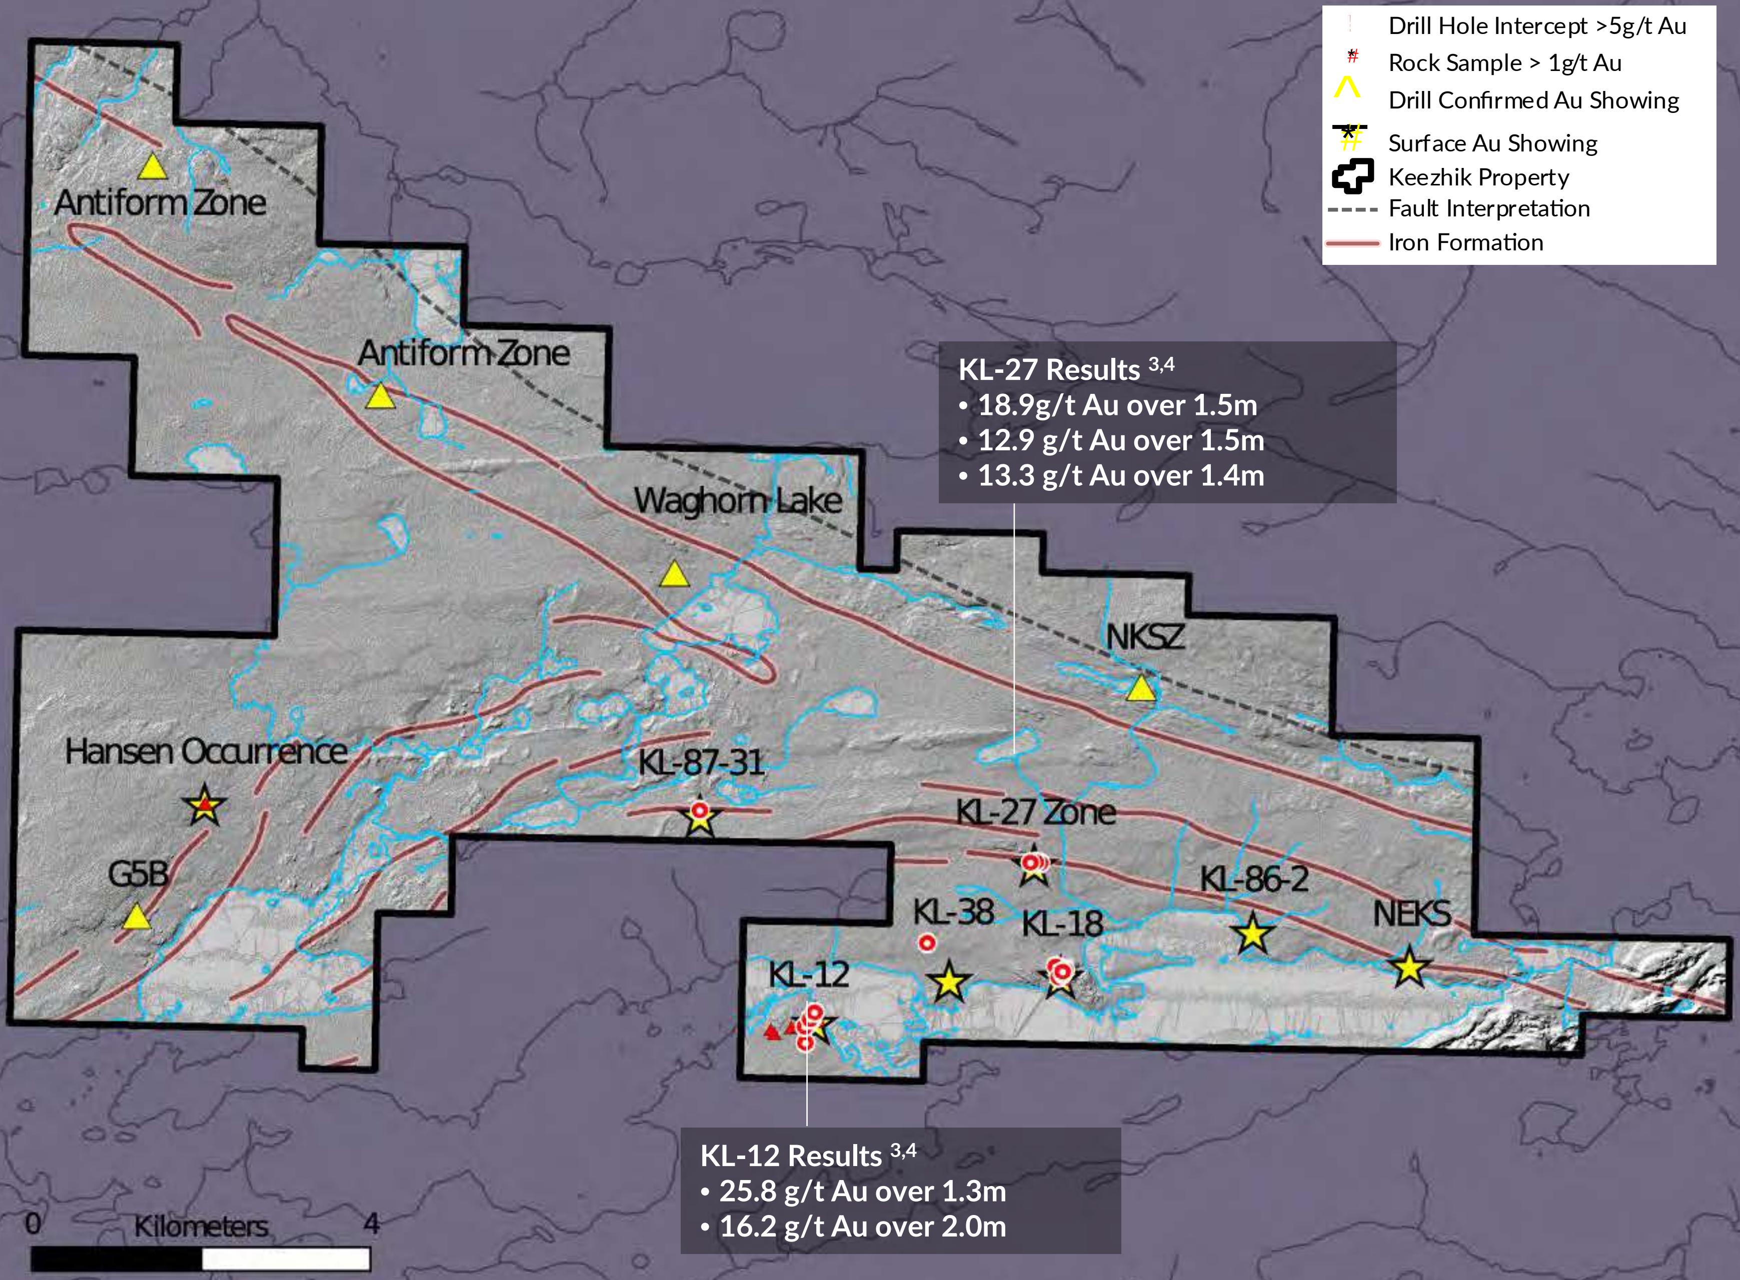
12,480 ha

of Prospective Geology

- 8 drill-confirmed high-grade gold targets
- Surface gold showings span the property
- Last drilled in 1988
- Property-wide airborne magnetic & Lidar surveys completed

Next Steps

- Airborne EM surveys
- On-ground target development
- Drilling



[3] Historical results have not been independently verified by Storm Exploration; and, there is no guarantee that the Company can reproduce the results in whole or in part. Potential investors should not rely on these historical results when making an investment decision

[4] NI 43-101 Technical Report on the Keezhik Lake Project: A. MacTavish, P.Geol & J. Arnold, P.Geol., 9-Oct-2007

Attwood Property

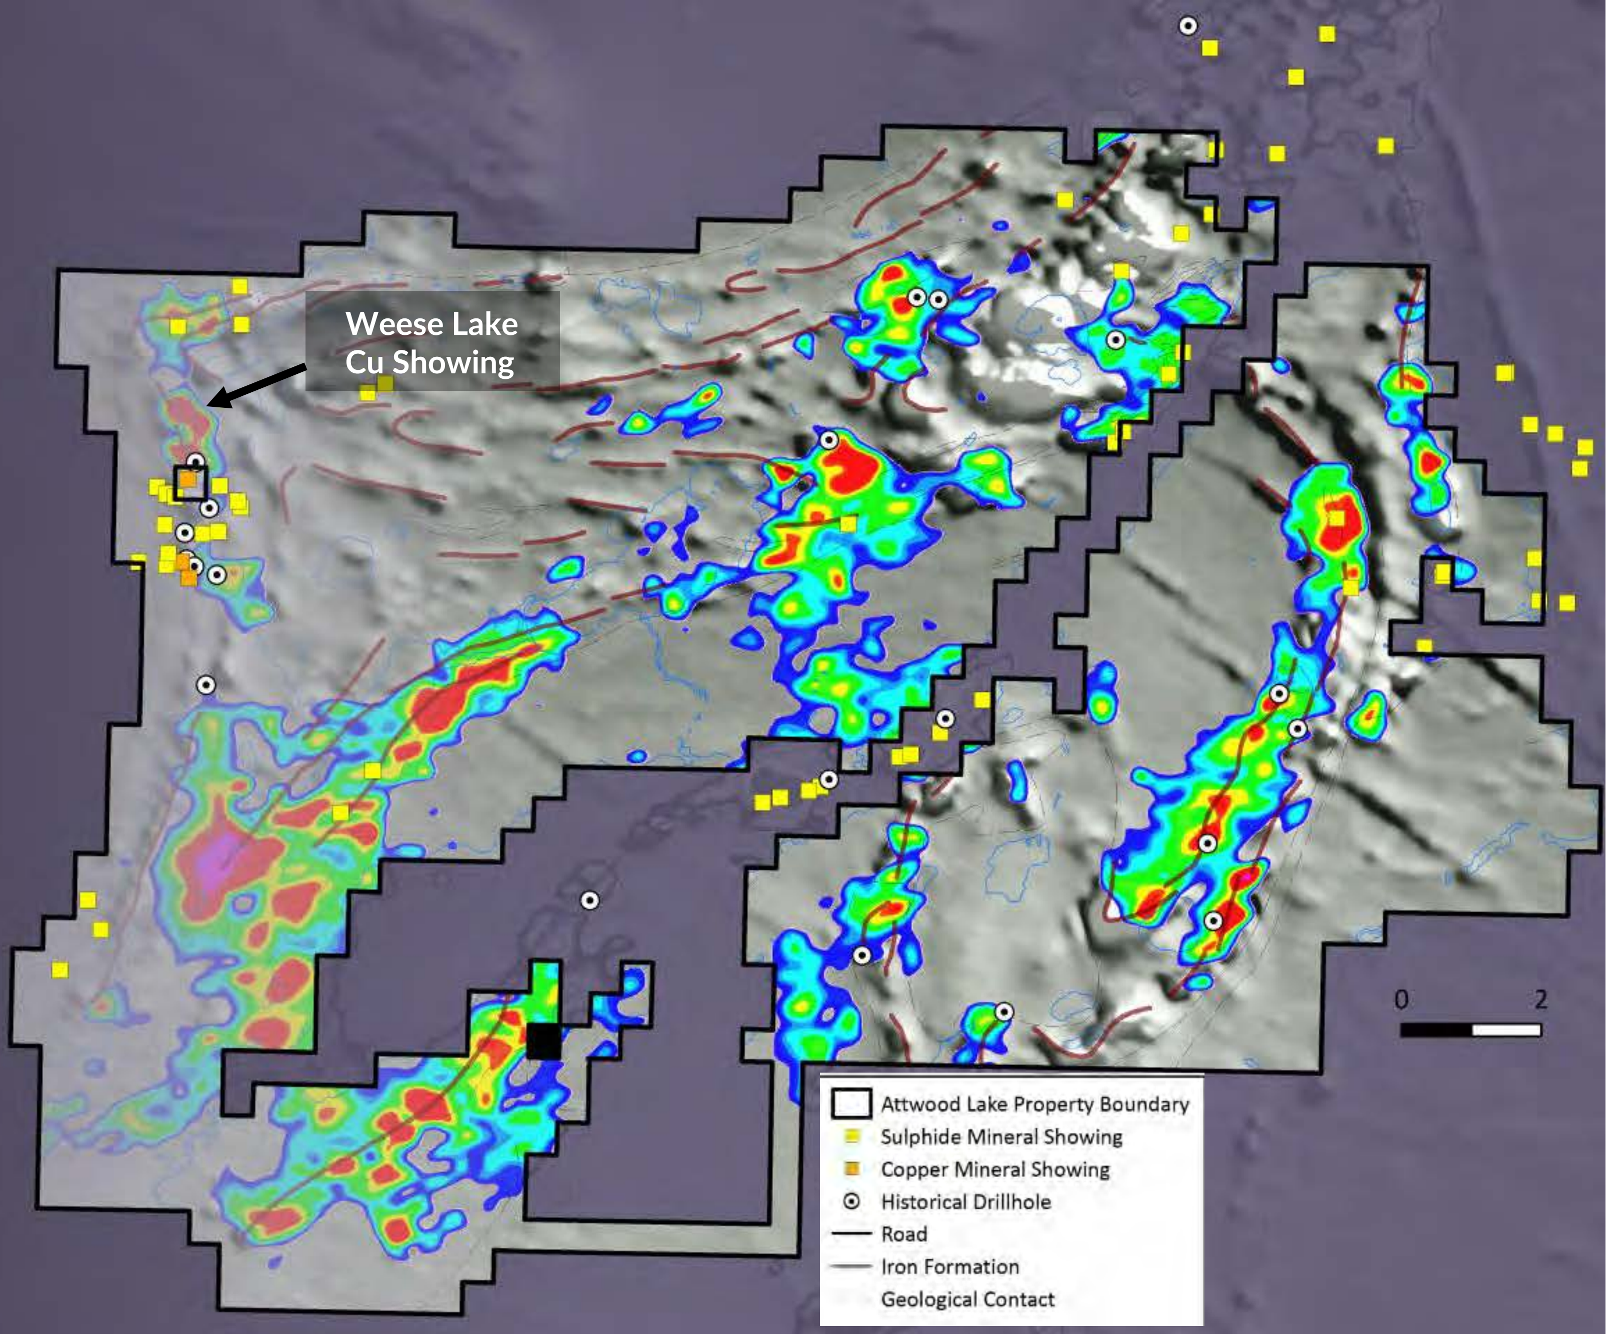
23,230 ha

of Underexplored Geology

- Only 19 historical drill holes
- Last drilled in 1972
- Host to historical Weese Lake Cu showing
- Sulphide mineral showings found property-wide, including arsenopyrite in banded iron formations (BIF)
- Large untested electromagnetic anomalies

Next Steps

- High-resolution geophysical surveys
- Soil sampling & geological mapping



Advancing Exploration Systematically & Cost Effectively

Upcoming Catalysts

2026	Q2	Q3	Q4
Gold Standard Project **Focus:** Drill in 2026	Modelling of Airborne EM Anomaly ✓ Testing of Ground VLF-EM Surveys ✓ Geological Mapping & Prospecting ✓	Additional Ground VLF-EM Surveys Geological Mapping & Soil Sampling Phase I Drill Program – 3000m	Phase II Drill Program
Keezhik Project **Focus:** Prepare for drilling in 2027		Property-wide Airborne VTEM Survey Mapping & Soil Sampling	Mapping & Soil Sampling
Attwood Project **Focus:** Prepare for drilling in 2027		Property-wide Airborne VTEM Survey Mapping & Soil Sampling	Mapping & Soil Sampling

Key Reasons To Invest

Prioritizing relationships w/ FN & community

Tightly held share structure - **21M I/O**

Confirmed critical & precious metal endowment

STORM
EXPLORATION

100% ownership of 3 projects in renowned NW Ontario

Limited modern exploration at district-scale properties

Drilling begins at Gold Standard Project - Q3/2026
